compost/Walt Bressert

native trees ordered (thank you to Jeanne)

native wildflowers - Josts are donating again

general handouts – Donna and Jeanne will work on this

order Wildseed Farms Catalog? Concern re: whether all native to

Missouri.

We will read the catalog and doublecheck. With what children will be doing, getting compost and planting seed in a container...some annuals, if included, are very supportive to all pollinators.

Recycle: Remains, textiles recycling said yes

The Shred Truck said no. Pro Shred also declined. Redkey is doing their recycling, shredding, and e-cycling event same day. We can focus our efforts on soil and push people to them for the recycling. We will help to promo their event and location and they will ours. Mutually inclusive.

Su's discussions with 2 small subdivisions gave areas of interest: how to garden, how to plant trees, volunteering. Maybe ask the Garden Club to do the "How to Garden". Maybe have pots, compost, seeds. Trying for hands on and interactive. Maybe do this at Earth Day 33.
