ITEM #19 Hearing concerning P.Z. 3-90 Dean R. Frankiewicz; request for a Conditional Use Permit in an "NU" and "FPNU" Districts; north side of North Outer Forty Road, East of Boones Crossing.

Planning Specialist Kleiner presented the reports of the Planning Commission concerning this matter. Councilmember Hrabko noted for the record that at a prior Planning/Economic Development Committee Meeting he raised concerns that restrictions on fence and lighting height, as recommended by the Planning Commission, were too restrictive. He also noted that the Committee had recommended changes in the conditions regarding fence and lighting height, but that if such amendment were not possible without exercise of the power review, the petition should then be received and filed by the Council.

Todd Massa, on behalf of the petitioner, made a presentation to the Committee. Mr. Massa noted that the height of the light standards have been proposed as a result of a study by Union Electric, and that the ten (10) foot fence recommended by the Planning Commission may not be of much utility. Councilmember Hurt noted that the lighting study had indicated thirty (30) foot lights but that he noted that lower heights could be utilized but would result in more light standards. Mr. Frankiewicz agreed. Glen Borgard on behalf of Volz Engineering addressed flood plain and flood way issues for the Committee. He noted that the petitioner had been in preliminary contact with the Corp of Engineers relative to consideration of areas as wetlands.

Councilmember Hathaway expressed concern that there were not public utilities available to the site and questioned how sanitary waste and water for sanitary purposes would be addressed. Mr. Borgard noted that a similar facility had been approved in an area in St. Louis County, and that a shallow well would be utilized for water. In addition, provision could be made to bring in potable water.

Councilmember Hrabko inquired relative to the procedure of approval and amending of conditions. City Attorney Beach and Director Duepner responded, noting that Council has final approval of the Conditional Use Permit and could revise conditions. City Attorney Beach noted that any revision to conditions would require 2/3 vote by the City Council.

A motion was made by Councilmember Hrabko for approval of the Conditional Use Permit with revision to the condition to allow an eighteen (18) foot high fence. The motion was seconded by Councilmember Hurt and approved by a vote of 4 to 0.

NOTE: A Resolution for Council action will be needed for this matter at the August 6, 1990, City Council Meeting.

ITEM #20 P.Z. 18-89 Charles Liebert (Westerly); request for an amendment of PEU in "R-1A" Residence District Ordinance; west side of Schoettler Road, south of Georgetown Drive.

Planning Specialist Kleiner presented the report of the Planning Commission recommending approval of two (2) ordinance amendment requests and denial of a third amendment request. Councilmember Hurt addressed the amendment as recommended for approval by the Planning Commission and also addressed concern expressed in the area relative to retention of the natural buffer along the northern boundary. Director Duepner summarized the current situation relative to the installation of a sewer line to serve the subdivision.

Councilmember Hurt noted that it was the intent of the ordinance to allow for sections of the natural buffer area to be disturbed for the extension of sewer lines, but not for the sewer line to be installed along the entire buffer area.

A motion was made by Councilmember Hurt to recommend approval of two of the amendments as recommended by the Planning Commission and to require final approval of the location of the sanitary sewer line by the Planning/Economic Development Committee. Motion was seconded by Councilmember Bute and approved by a vote of 4 to 0.

NOTE: An ordinance relative to this matter will be needed for the August 6, 1990, City Council Meeting.

The meeting adjourned at 6:55 p.m.
